Logo Usage

Congratulations! You are now certified! We trust this certification will bring your organization greatr recognition and facilitiaes you to fullfill your organization's ; mission with greater confidence.

You may now feature the certification logo in your corporate and marketing collateral.

We respectfully request that you adhere strictly to this guide when using the logo at all times.

It is recommended that you send us a draft copy of the collateral that will include the certification logo for our review. We may then make appropriate recommendations where necessary. This will go a long way in giving your certification more credibility and prestige. You may write to us @ certification@isocert.com.sg. We will respond to your request within 3 working days.

You may download the full set of your certification mark from this link:

Color Guide

Full Color Applications

This section defines the colour codes of the respective certification logos your organization has been certified with. These colour codes must be adhered to strictly .

Color Guide

Black and White Applications

This section defines the colour codes of the respective certification logos your organization has been certified with. These colour codes must be adhered to strictly .

Reverse Applications

Logo: clear space

Use the height of the blue bar as the height and width to determine the proper clear space all around the logo.

Usage with SAC logos

All logo's which comes with SAC and or IAF accreditations, please do follow the following arrangement.

- i. The certification body's mark must come before the SAC accreditation mark.
- ii. The certification body's mark and SAC accreditation mark should preferably be boxed up together.
- iii. The certification body's mark shall maintain similar proportions to the SAC accreditation mark.
- The difference in the height of the certification body's mark and SAC accreditation mark shall not be more than 5%.

The SAC accreditation mark may be uniformly enlarged or reduced, but shall not be less than 15mm in height. The accreditation marks must be reproduced in the official colours, red (Pantone 032C) or dark grey (Pantone 432C). Single colour accreditation marks, subjective to SAC's approval, can be used for limited colour or black and white production, only on light backgrounds. The font used for the certificate number is Univers 65 Bold. When this font is not readily available using software such as Microsoft Office or on platforms such as websites, Arial Bold can be used in its place. When an accredited organisation is accredited for more than 1 programme/field, the accredited organisation can choose to list all certificate numbers under 1 SAC mark, after obtaining approval from SAC in writing.

Size

Preferred sizes (30mm -Height)
